| <b>Symbol:</b>       | FLY1.50-YL                    |
| <b>Productgroep:</b> | Kabels voor auto-installaties |

### Productparameters:

|                                          |                      |
|------------------------------------------|----------------------|
| <b>Type leiding:</b>                     | montage              |
| <b>Soort kabel:</b>                      | FLY                  |
| <b>Opbouw kabel:</b>                     | 1x1,5mm <sup>2</sup> |
| <b>Constructie ader:</b>                 | koord                |
| <b>Soort ader:</b>                       | Cu                   |
| <b>Aantal aders:</b>                     | 1                    |
| <b>Aderdoorsnede:</b>                    | 1,5mm <sup>2</sup>   |
| <b>Materiaal van geleidingsisolatie:</b> | PVC                  |
| <b>Kleur isolatie:</b>                   | geel                 |
| <b>Nominale spanning:</b>                | 60V                  |

|                         |             |
|-------------------------|-------------|
| <b>Werktemperatuur:</b> | -40...105°C |
|-------------------------|-------------|

|                           |      |
|---------------------------|------|
| <b>Inhoud verpakking:</b> | 100m |
|---------------------------|------|

|                                  |           |
|----------------------------------|-----------|
| <b>Conformiteit met de norm:</b> | ECE R-118 |
|----------------------------------|-----------|

|                                    |           |
|------------------------------------|-----------|
| <b>Uitwendige leidingdiameter:</b> | 2,7...3mm |
|------------------------------------|-----------|
