

Productkaart FLRY-B0.35-WH/1

| | |
|----------------|-----------------|
| Symbol: | FLRY-B0.35-WH/1 |
|----------------|-----------------|

| | |
|----------------------|-------------------------------|
| Productgroep: | Kabels voor auto-installaties |
|----------------------|-------------------------------|

Productparameters:

| | |
|----------------------|---------|
| Type leiding: | montage |
|----------------------|---------|

| | |
|---------------------|--------|
| Soort kabel: | FLRY-B |
|---------------------|--------|

| | |
|----------------------|-----------------------|
| Opbouw kabel: | 1x0,35mm ² |
|----------------------|-----------------------|

| | |
|--------------------------|-------|
| Constructie ader: | koord |
|--------------------------|-------|

| | |
|--------------------|----|
| Soort ader: | Cu |
|--------------------|----|

| | |
|----------------------|---|
| Aantal aders: | 1 |
|----------------------|---|

| | |
|-----------------------|---------------------|
| Aderdoorsnede: | 0,35mm ² |
|-----------------------|---------------------|

| | |
|--|-----|
| Materiaal van geleidingsisolatie: | PVC |
|--|-----|

| | |
|------------------------|-----|
| Kleur isolatie: | wit |
|------------------------|-----|

| | |
|---------------------------|-----|
| Nominale spanning: | 60V |
|---------------------------|-----|

| | |
|------------------------------------|---|
| Werktemperatuur: | -40...105°C |
| Buigzaamheidsklasse: | 5 |
| CPR-norm: | geen classificatie |
| Conformiteit met de norm: | ECE R-118 |
| Uitwendige leidingdiameter: | 1,2...1,4mm |
| Informatie: | De draden kunnen in meerdere segmenten worden geleverd. Minimale segmentlengte en veelvoud van 1m |

Extra informatie

| | |
|-----------------------|----------|
| Bruto gewicht: | 0,005 kg |
|-----------------------|----------|
