| Productgroep: | Wikkeldraden |
|----------------------|--------------|

Productparameters:

| | |
|----------------------|-------------|
| Type leiding: | wikkeldraad |
|----------------------|-------------|

| | |
|------------------------------|--------------------------|
| Eigenschappen draden: | enkelvoudig geëmailleerd |
|------------------------------|--------------------------|

| | |
|------------------------|--------|
| Buitendiameter: | 1,65mm |
|------------------------|--------|

| | |
|----------------------|--------|
| Nettogewicht: | 0,25kg |
|----------------------|--------|

| | |
|-------------------------|-------------|
| Werktemperatuur: | -65...200°C |
|-------------------------|-------------|

| | |
|--------------------|----|
| Soort ader: | Cu |
|--------------------|----|

| | |
|---------------------------|-----|
| Inhoud verpakking: | 13m |
|---------------------------|-----|

| | |
|---------------------------|--------------------|
| Isolatiemateriaal: | lak polyesterimide |
|---------------------------|--------------------|

Extra informatie

Bruto gewicht: 0,259 kg
